## **The Stalin School of Falsification**, Leon Trotsky

The October 1917 Revolution, Trotsky explains, was workers' most powerful conquest in history. Here he exposes the "theoretical forgeries and historical frame-ups" cobbled together in the 1920s by a rising bureaucratic caste headed by Joseph Stalin to rationalize a political counterrevolution. The book helps arm new generations with an understanding of why the working class can secure and extend gains won in struggle only by conquering power from the capitalist class.
